Our interests (and strengths) – cross-cutting project roles, and CSAs

- We have a strong track record in collaborative research
 - Partner in FP7 BEAUTY project (bio-fuels) – cross-cutting life cycle analysis of fuels
 - Supporting a UK NGO in running a major national R&D portfolio
- We are a potential partner in cross-cutting roles such as:
 - **Technical analysis, e.g. comparison on basis of cost/benefit, maturity, risk & LCA**
 - **Analysis of supply chains, markets, potential economic benefits etc.**
- In, for example:
 - SST-2013.1-2 Zero Emission Ship
 - GC.SST.2013-1 Feasibility of on-road charging
 - GC.SST.2013-3 Light urban EVs
 - GC.SST.2013-4 Electric Buses
 - GC.SST.2013-5 Configurable & adaptable truck
 - GC.SST.2013-6 High efficiency for future HD transport
 - SST.2013.6-1 Research & Innovation CSA
 - TPT.2013-1 Technology transfer CSA
 - TPT.2013-2 Mapping regional research & innovation CSA
